INTRODUCTION

My printer says cut out several pages "human interest" stuff if he prints this price list for amount of money my banker says I may have.

Therefore the prices speak their own piece; bulbs are O. K. or I make it O. K. by you.

NO C. O. D. ORDERS ACCEPTED.

POSTAGE STAMPS taken only at 5% discount.

Postage Prepaid on orders over \$1.00 (except when noted). Orders under \$1.00 postage 15c extra.

For better descriptions and cultural directions see next spring catalog which will be out about February, 1930. Spring 1929 Catalog free for 2c stamp.

TIME OF DELIVERY is now for everything except Glads. Glads will be sent at digging time if desired, but will hold eastern orders for delivery about April 1st if received after danger of freezing in transit begins. We can also deliver Iris, Amaryllis, etc., in Spring if preferred.

A TULIP APOLOGY

Last spring I offered my small California grown tulips at 50c per 100. They were worth 1.00. Result: Sold ten times too many. Had to buy a lot and lost money as per usual. Several were disappointed because they WERE small. I returned money.

Anybody else dissatisfied? If so, will return money or send you large tulips at list price. If you will take the large tulips (I am short on cash) I will give free two bulblets of gladiolus Orchid for every 50c worth exchanged.

One trouble was I had to bring in all the neighbors to help clean and count, and some of them inclined to pick out the big bulbs first; some could not count.

Sorry if you were disappointed and will sure make it right. Most of you know, of course, that large tulips cost at least five times that price wholesale in Holland.

See my list of Tulips. I struck a bargain and pass it on. These are first class bulbs and grown in Oregon. I have grown Oregon and Holland grown Tulips side by side. I can't tell the difference, though Oregon bulbs are believed to be a little better, as they do not have to dig so early to ship across the ocean.

"DUTCH BULBS"

Grown by Dutchmen on This Coast

I picked up some bargains and give you the benefit in price. They are all nice large bulbs. First class every way. Tulips are 1in. diameter and up, Oregon grown. Narcissus are mostly large round bulbs grown in California.

Plant any time before January 1st or before ground freezes, but early is advised.

These varieties are the very best.

Price per dozen is 10 times price per bulb. 100 for 75 times price of one.

NARCISSUS AND DAFFODILS

Polyanthus narcissus, mixture of Chinese Sacred Lily, Grand Monarque, Paper White Grandiflora. Hardy in California; grow in pots in East. Bargain, per dozen.....50c
Daffodils, King Alfred, biggest, best, goldenest, frilled; each.....25c
Glory of Sassenheim, largest, best, bicolor, 25c
Primrose Phoenix, very fragrant, double primrose yellow, each.....25c
Will Scarlet, orange-red cup, cream perianth. Striking. Each.....30c

TULIPS

These bulbs are all large size, 1 inch or more in diameter. They are ready for delivery now. The varieties are the best. All do well in

California or the South, as well as in cold climates. D. are Darwins; B., Breeders; M., May flowering or Cottage Tulips.

These are very low prices. Prices are per single bulb and per dozen.

Bleu Amiable, D., Bluish lilac; 6c ea.; 60c doz.
Bronze Queen, B., Apricot buff, 6c ea.; 60c doz.
Clara Butt, D. Best pink.....6c ea.; 50c doz.

Half size (bloom well).....30c doz.
Eclipse, M. Orange splashed red. 6c ea.; 55c doz.

Edmee, D. Cherry rose, silvery pink edge. Exquisite.....8c ea.; 75c doz.
Farncombe Sanders, D. Scarlet. 8c ea.; 75c doz.
Gesneriana Maj. Spath, M. Crimson scarlet 6c ea.; 60c doz.

Inglescombe Yellow, M.....7c ea.; 65c doz.
King Harold, D. Crimson maroon. 7c ea.; 65c doz.

King Harold, D. Crimson maroon. 7c ea.; 65c doz.

Osmode, D. Fine red.....6c ea.; 55c doz.
Psyche, D. Rose inside silvery rose. 6c ea.; 60c doz.

Remembrance, D. Silvery violet, Lovely. 7c ea.; 65c doz.

Rev. Ewbank, D. Heliotrope lilac, lighter edge. 8c ea.; 75c doz.

Mixed. This mixture contains a large number of varieties of all types hardy on both Pacific Coast and East, as well as the South. There are Darwins, May-flowering, Breeders, etc., in a brilliant array of color. What is more

wonderful than a bed of mixed Tulips? These are about 1 inch bulbs and up, though a few like Clara Butt do not make large bulbs and may run just a little under. Per dozen 50c; per 100, \$3.75.

Smaller size that will bloom first year and make larger bulbs for second year, per doz. 30c; per 100 \$2.50.

Small bulbs—we had to buy small bulbs to fill our spring orders. They cost us more than the price quoted then, but what is left over you may have at \$1.00 per 100. Don't expect large bulbs, though many of these will bloom. State what we may substitute when these are sold out, which will be soon.

MORE ABOUT TULIPS

Culture. Plant before ground freezes solid in East. In California and South they may be planted as late even as January, but it is better to plant much earlier. Plant 4 or 5 inches deep and at least 6 inches apart. A mulch of well rotted manure is useful. They may remain 3 or 4 years in the same place.

Order Tulips Now. There is a great shortage of Tulips, as the crop was short in Holland. If you want to return the small bulbs received on spring order, do so at once, though I advise you to plant, as they will give many blooms with proper culture, and give much larger bulbs for next year.

Those who expected large bulbs for 50c per 100 certainly do not realize the cost of Tulips. Even the medium size cost \$12 to \$15 per 1000 in Holland. See my Tulip Apology in introduction.

RANUNCULUS

New French Hybrids, small, dozen.....25c
5 doz., \$1.00; 100 for \$1.50.

Larger size 35c doz 3 for \$1.00, per 100 \$2.00

New Florentine Ranunculus. Said to be better. Small, 35c doz., 4 for \$1.00; \$2.00 per 100.

Larger, 50c doz.; \$3.00 per 100.

None of these are large bulbs. The small ones bloom very well.

Anemones—small, dozen.....35c

ALL ABOUT THE MYSTERIOUS DISAPPEARANCE OF WM. DOLLAR

Last Spring I dedicated my Catalog to a very much sought after individual, Wm. Dollar. "Sought after" is right. Not only are the police after him, but even sometimes a prosecuting attorney. Why, just the other day I was pinched for driving in the middle of the street in Los Angeles and fined \$15. "Educational Drive" to teach people to keep the center of the street clear for speeders and raise money to buy police autos. Everybody seems to be after William. Even a few brides and grooms have sought him primarily.

My appeal last Spring brought in quite a flock of "Williams." Even my cousin (C. E. Houdyshel, Pawnee Rock, Kansas) kissed him good-bye, folded him in a most amusing letter and sent him on. First time in 30 years I had heard from Carl Edgar.

I took awfully good care of all the Williams, but I had so much work I had to send a few out into the garden every day to take care of the fine bulbs I am raising for you. By night William would seem to be quite "spent," and I could not get him back into the house again. He would readily permit hands of toil to thrust him into pockets or wantonly ride away with the pretty girls from the office.

If I sent him to the store for groceries they would be delivered to my door, but William would not return. I saw the last of the last William nearly two months ago.

I don't know whether this had anything to do with it or not, but this summer William went on the Hollywood 18-day diet and reduced. He is not only slimmer but also shorter.

Maybe he got back to you again. He seems to be a sort of "circulating decimal." Anyway, my \$1.00 soon reads this way \$.601. The "one" circulates around the decimal and the "0's." That is worse than what one of "Bob's" 99-cent sales does to a Dollar. It only changes \$1.00 to \$0.01, and you get \$1.25 worth of groceries, too.

Now in case you are able to recapture Bill, I am offering some special rewards herein for his return to me. Maybe I don't love him like I ought, but I've got a job for him again.

Here is a suggestion that should bring him back running.

DO YOUR CHRISTMAS SHOPPING NOW

What would be more appropriate for your flower-loving friends than a Dollar's worth of Houdyshel Bulbs? Make your own selection,—a \$1.00 worth of Glads,—Los Angeles, LaVerne, Crepe, Dr. Bennett, mixed, an Iris collection, or bulbs of any sort. We will fill the order liberally and add free one Los Angeles Jumbo bulb. Pack in a neat box lined with tissue paper and wrapped outside with holly paper.

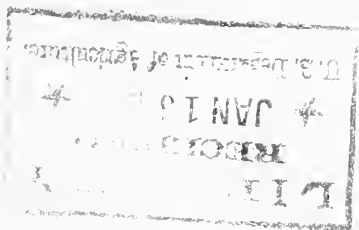

From December 1 to 10 we will mail these out in frost proof package (if to a cold country). Insured 5 cents extra.

Or 5 pounds English walnuts for \$1.00. (Bag 10c and postage or express extra.)

Now, isn't that a good idea? Come on, Bill. Do your stuff.

GLADIOLUS LOS ANGELES BROADCASTING

Hello Springfield, Hello Atlanta, Hello Everybody.
This is the Gladiolus Los Angeles speaking. I was
named for the city of Los Angeles, where I was born
and where they love me so much. My petals are a
beautiful grenadine (orange-pink) color. They call me

THE CUT AND COME AGAIN GLAD

because I give so many spikes from each stem. Even
when cut within a few inches from the ground I send
up a new stem from the old stump. I am the nearest

EVERBLOOMING

but not quite, as that is not possible. I often give over 100
flowers from one bulb.

I WANNA MAKE WHOOPEE

in your garden next summer. May I? Just send my Daddy \$1.00 and at digging time
he will send 25 "me's," all nice blooming size and some of them "way big," but not any
"teensy weensy." Mention OFFER A.

I'll hop on the train this fall before it gets too cold. Meet me at the P. O. I'll
be wearing a postage stamp.

If you live close to my Daddy you can drive out and I'll ride back with you. I
prefer to ride in a strip-down Ford, but a Rolls-Royce will do.

I am California Sunshine; I am Nature and Art; I am dainty femininity; I am
a candy lollipop; I am the lovely dream you had last night; I am the
